

§ 30.401 What are the special rules for the services of chiropractors?

(a) The services of chiropractors that may be reimbursed by OWCP are limited to treatment to correct a spinal subluxation. The costs of physical and related laboratory tests performed by or required by a chiropractor to diagnose such a subluxation are also payable.

(b) A diagnosis of spinal subluxation as demonstrated by x-ray to exist must appear in the chiropractor's report before OWCP can consider payment of a chiropractor's bill.

(c) A chiropractor may interpret his or her x-rays to the same extent as any other physician. To be given any weight, the medical report must state that x-rays support the finding of spinal subluxation. OWCP will not necessarily require submission of the x-ray, or a report of the x-ray, but the report must be available for submission on request.

(d) A chiropractor may also provide services in the nature of physical therapy under the direction of a qualified physician.

§ 30.402 What are the special rules for the services of clinical psychologists?

A clinical psychologist may serve as a physician within the scope of his or her practice as defined by state law. Therefore, a clinical psychologist may not serve as a physician for conditions that include a physical component unless the applicable state law allows clinical psychologists to treat physical conditions. A clinical psychologist may also perform testing, evaluation, and other services under the direction of a qualified physician.

§ 30.403 Will OWCP pay for the services of an attendant?

OWCP will authorize payment for personal care services under section 3629 of the EEOICPA, whether or not such care includes medical services, so long as the personal care services have been determined to be medically necessary and are provided by a home health aide, licensed practical nurse, or similarly trained individual.

§ 30.404 Will OWCP pay for transportation to obtain medical treatment?

The employee is entitled to reimbursement of reasonable and necessary expenses, including transportation needed to obtain authorized medical services, appliances or supplies. To determine what is a reasonable distance to travel, OWCP will consider the availability of services, the employee's condition, and the means of transportation. Generally, 25 miles from the work site or the employee's home is considered a reasonable distance to travel. The standard form designated for federal employees to claim travel expenses should be used to seek reimbursement under this section.

§ 30.405 After selecting a treating physician, may an employee choose to be treated by another physician instead?

(a) OWCP will provide the employee with an opportunity to designate a treating physician when it accepts the claim. When the physician originally selected to provide treatment for an occupational illness refers the employee to a specialist for further medical care, the employee need not consult OWCP for approval. In all other instances, however, the employee must submit a written request to OWCP with his or her reasons for desiring a change of physician.

(b) OWCP will approve the request if it determines that the reasons submitted are sufficient. Requests that are often approved include those for transfer of care from a general practitioner to a physician who specializes in treating occupational illnesses covered by the EEOICPA, or the need for a new physician when an employee has moved.

§ 30.406 Are there any exceptions to these procedures for obtaining medical care?

In cases involving emergencies or unusual circumstances, OWCP may authorize treatment in a manner other than as stated in this subpart.
